

Environment Policy

Polynovo believes that environmental sustainability is crucial to our success as a business. We recognise that we have a responsibility to the environment that extends beyond legal requirements and will conduct all our activities with the aim of minimising adverse effects on the environment.

At Polynovo, we will:

- Comply with environmental laws and regulations
- Identify and manage environmental risks within our operations and apply best practice environmental principles.
- Minimise pollution and the environmental impact of our activities.
- Seek to reduce waste and improve resource use efficiency in our design and operating practices.
- Engage with our suppliers and contractors to develop improved environmental sustainability practices.
- Monitor the effects of our activities and review our practices to minimise our footprint.
- Set internal targets which drive us to improve our environmental performance.
- Report our environmental performance openly and transparently.
- Continually improve our systems and processes through training, review and research and development.

Directors and Senior Managers are responsible for ensuring compliance of this policy across Polynovo.

This policy applies to all personnel engaged in activities under Polynovo's operational control, including, contractors and visitors.
